

5 Courses

Ready, Set, Future!
Introduction to Futures Thinking

Forecasting Skills: See the Future Before it Happens

Simulation Skills: This is Your Brain on the Future

Collaborative Foresight: How to Game the Future

Urgent Optimism: How to Turn Foresight into Action

16-Sep-2020

Denise Albrecht

has successfully completed the online, non-credit Specialization

Futures Thinking

In this Specialization, learners developed their futures thinking skills, using the Foresight-Insight-Action framework. Specific skills include signals collection and analysis, forecasting and scenario development, artifact design, and collaborative simulation. Learners completed a Capstone project at the end of the Specialization to demonstrate their mastery of these skills and their ability to apply the Foresight-Insight-Action cycle to a specific future challenge.

Jane McGonigal, PhD
Research Director

The online specialization named in this certificate may draw on material from courses taught on-campus, but the included courses are not equivalent to on-campus courses. Participation in this online specialization does not constitute enrollment at this university. This certificate does not confer a University grade, course credit or degree, and it does not verify the identity of the learner.
